

## Congratulations for choosing handmade XalateX latex clothing!

Very few people fit into the standardized clothing sizes. So that you can still find a suitable latex dress, we will make tailor-made latex clothing for you at no extra charge. Because especially with latex clothing, it's annoying when it doesn't fit.

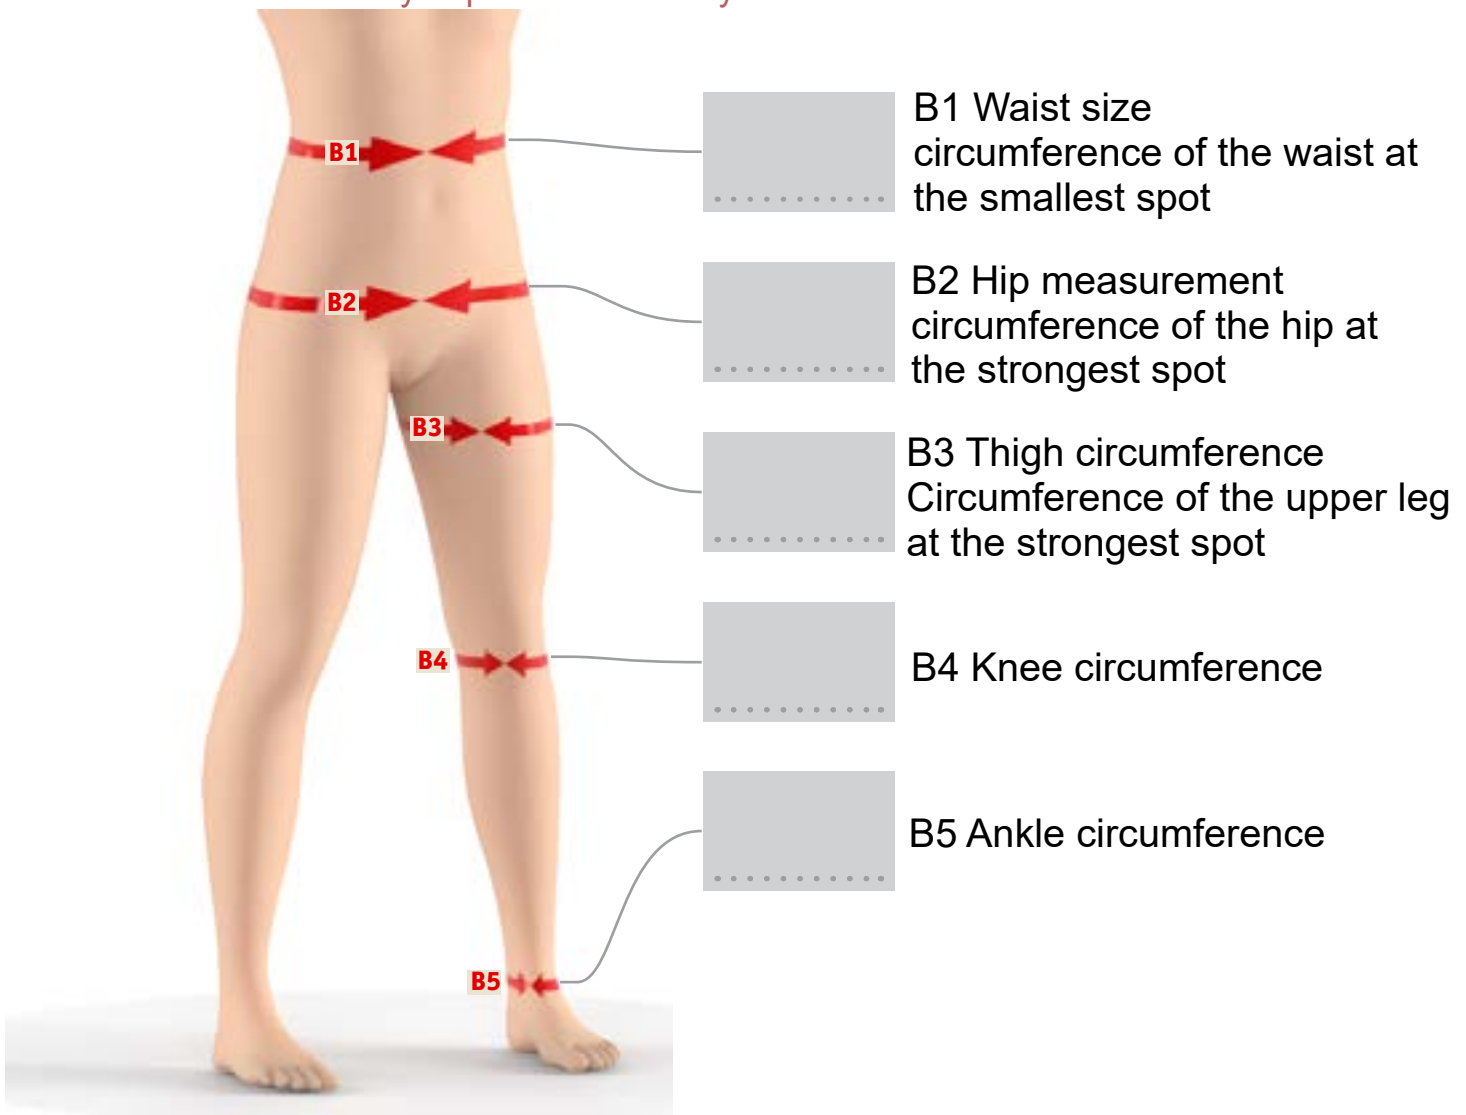

Taking the measurements is the key to an accurate fit:

- Let someone else measure you: Measuring yourself simply does not work. There are also dressmakers, who can do the professional measuring for you.
- Please fill in all requested measurements.
- Unit of measurement is in centimeters (cm)

If you have any questions about the measurement, do not hesitate to contact us.

☎ +49 (0)2246 3036714    ✉ kontakt@xalatex.com

You can either write your measurements directly into the PDF document or you print it and fill in your measurements.

- B6 Side knee length  
Length from the side waist line along to the knee
- B7 Side length of trousers  
Length from the side waist line down to the hem of long trousers
- B8 inner trouser length  
Length from the crotch on the inside of the trouser hem

- B9 Crotch length  
Length from the front waist-line through the crotch to the rear waist line

You can mark here whether you want your outfit to be cut very tight, exact or a little bit more casual:

-5 %

1:1

+5 %

very tight

exact measurements

slightly loose

If you have any questions about the measurement, do not hesitate to contact us.
